

Armando Maikol Duran Salas

BACKEND DEVELOPER | MECHATRONIC ENGINEER

ABOUT ME

Dynamic and analytical Junior Backend Developer and Mechatronic Engineer with strong experience in developing projects using Python, JavaScript, React, C#, and Node.js. Skilled in front-end technologies such as HTML/CSS and database management with MySQL and PostgreSQL. Experienced in agile environments (Scrum), familiar with version control using Git/GitHub, and active participant in sprint ceremonies. Known for adaptability, structured thinking, and problem-solving aptitude to deliver efficient software solutions.

EXPERIENCE

- Riwi**

ACADEMIC PROJECT – SAN VICENTE HOSPITAL September 2025

 - Developed a console application in .NET 8 to optimize medical appointment management, replacing an error-prone manual system.
 - Built a complete CRUD system for managing Patients, Doctors, and Appointments entities.
 - Implemented a clean architecture separating responsibilities: business logic in a Service Layer and data access through the Repository Pattern.
 - Integrated automatic appointment confirmation emails to patients using System.Net.Mail.
 - Applied Object-Oriented Programming principles and data validations to maintain system integrity.
 - Tech stack: C#, .NET 8, OOP.
 - Tools: Git, GitHub, .NET CLI, Visual Studio / VS Code.
 - Repository: <https://github.com/THEMAIK17/SanVicenteHospital.git>

CSP de Colombia Ltda.

HYDROTESTER OPERATOR

September 2022 – August 2024

- Executed hydrostatic pressure tests to verify pipeline integrity and safety for the oil industry.
- Ensured strict compliance with quality protocols and technical regulations.
- Developed exceptional attention to detail analogous to software testing and quality assurance.
- Gained discipline in documenting rigorous operating procedures, essential for version control and reliable code delivery.
- Tech stack: Hydrostatic Testing Equipment, Data Interpretation.
- Tools: Precision manometers, Control valves, Data recording software.

EDUCATION

Riwi, Barranquilla, Colombia

JUNIOR DEVELOPER

March 2025 – June 2026

SENA, Barranquilla, Colombia

SOFTWARE DEVELOPER (IN PROGRESS)

November 2025 – Present

Institución Universitaria De Barranquilla, Barranquilla, Colombia

MECHATRONIC ENGINEER

March 2023 – March 2025

Institución Universitaria De Barranquilla, Barranquilla, Colombia

TECHNOLOGY IN ELECTROMECHANICAL SYSTEMS MANAGEMENT

August 2021 – March 2023

Institución Universitaria De Barranquilla, Barranquilla, Colombia

PROFESSIONAL TECHNICIAN IN ELECTROMECHANICAL MAINTENANCE

January 2019 – July 2021

Institución Educativa Distrital Inocencio Chinca

HIGH SCHOOL DIPLOMA

Completed December 2018

SKILLS

Technical Documentation	Preventive Maintenance	Troubleshooting and Debugging
Session and Authentication Management	Frontend Routing	OOP Principles
RESTful Services	API Development	Scrum / Agile Methodologies (Basic)
Git / GitHub (Basic)	PostgreSQL (Familiar)	MySQL (Intermediate)
CSS (Intermediate)	HTML (Intermediate)	React (Intermediate)
Node.js (Intermediate)	C# / .NET (Intermediate)	JavaScript (Intermediate)
Python (Intermediate)		

LANGUAGES

English (A2/B1 – Actively improving)	Spanish (Native)
--------------------------------------	------------------

HOBBIES

Continuous learning	Tech exploration	Video game development / enthusiast
---------------------	------------------	-------------------------------------
